The fripperies were sent, and she returned all except a ack one, and this, her maid informed the t day, however, in spite of this deci-the "front" was returned, and then it again dispatched to Lady Randolph, so back and forth it went between the op and the lady's house until it was lit-ally "worn to rags." The plaintiff then sed Lady Randolph Churchill for the mount of the purchase, which she refused acknowledge, while at the same time he serted that ladies were in the habit of ving things sent to their homes on appro-tion, and then having them copied by eir maids or dressmakers, afterwards re-ming them to the shop without buying ything at all. This, he contended, had idently been the situation in Lady Ran-

The ludge said that the fact that the defendant had visitors, and so on, to attend to did not prevent her being dealt with as any other person. The probabilities were on the side of the plaintiff. He knew of cases where copies of articles of this kind were made by malds, and there was good reason that they should not be left. There would be judgment for the plaintiff with costs.

That judge was evidently a good deal less innocent than judges usually pretend to be.

DAMON WAS STEADY. While McFarland Gave Bases

Balls at Critical Times. Special to the Indianapolis Journal. GRAD, RAPIDS, Mich., June 22.-Excitement and sensational plays have been frequest during the entire Indianapolis series, but this afternoon the sensationalism culminated in a triple play, the first ever seen on the Grand Rapids grounds. It happened in the fourth inning, Damon, Motz and Stewart trapping Gettinger, Mills and Smink, the home team's three fastest base runners. In this inning Gettinger led off with a single hit to Damon, who held

the ball until Gettinger had reached sec-

ond base. Smink, the next batsman,

bunted a little fly to Damon, who threw

to Motz, who in turn threw to Stewart in time to shut off all the men on bases. The pitchers in this afternoon's contest were evenly matched as far as safe hits registered off them is concerned. McFarland sent two men to bases on balls in two different innings and the Hoosiers lined out safe hits immediately following, and scored enough runs to win the close game. The fielding on both sides was nearly perfect, each error being costly to the extent of one run. In every way the teams played an even game. Indianapolis leading in one important particular-sacrifice hitting. The run in the third inning was made on Wheelock's error after two men were out. The four in the fourth came on safe hitting after McFarland had filled the bases with two bases on balls and slow work handling a bunt hit. One was sacrisced in the sixth inning and two were batted in the seventh. Attendance, 900.

Summer Warning.

Philadelphia Record. 'As the season for picnics is in full force it is just as well to remember that the caution not to "mix" your drinks applies with equal force to the foods that quarrel with each other. Bismarck, it is true, puts brandy in his beer, just as he recommended "blood and iron" in statesmanship, and might seem to have "defied augury;" but the later years of his rheumatism and other weaknesses, while English and Amercan public men of greater age are in full vigor, show that the bill for such indiscretions always comes in at last.

SEVEN GOOD HORSES TO CONTEST FOR THE RICH SUBURBAN TO-DAY.

Henry of Navarre and Clifford Favo ites with the Knowing Ones-Winners of Yesterday's Events.

NEW YORK, June 22 .- Although there are but seven entries for the Suburban, to b run at Sheepshead bay to-morrow at the opening of the spring season of the Coney Island Jockey Club, there is nothing lacking in quality, for the best of the handicap horses in training are engaged. The official list is as follows: Henry of Navarre, 129 (Griffin); Clifford, 125 (Taral); Sir Walter, 125 (Ballard); Nanki Pooh, 112 (Doggett; Hornpipe, 111 (Hamilton); Belmar, 110 (J. Hitt); The Commoner, 113 (Clayton).

The track was very heavy this morning after the storm of last night, but by after-noon it had dried cut fairly well and there is every prospect of a fast track by to-morrow. As it was an off day in racing there was a considerable number at the track to-day to watch the work of the horses, and to attend the sale of the Belle Meade yearlings. Among all the people there seemed to be but one opinion as to the result of the race. Few would concede that there would be anything in it but Henry of Navarre and Clifford, and the supporters of the two ware, about equally divided. Both Hylands, the trainer of Navarre, and Rogers, the trainer of Clifford, were chary of talking of their charges, but it was evident that each expected to carry off the prize. Hylands said that Clifford was a fine horse and a hard one to beat, although row. As it was an off day in racing there record, now held by R. P. Searle. It is five days, twenty-two hours and fifteen minutes. This record was once held by Smith. His route is via Cleveland. Buffalo, Rochester and Albany and he expects to arrive in New York Sunday afternoon. Smith carries a message from Postmaster Hesing to Postmaster Dayton, of New York fine horse and a hard one to beat, although he seemed a little insincere. Rogers said Clifford might be a little better than Nativarre, but he evidently did not think so. Both had their final work for the stake on Saturday, and the trainers declared that 2:16 was the time, although they were caught by a dozen at less. The Commoner had several supporters, who thought that he might have a chance as he had been reported as working well and to be in the best possible condition. Nanki Peoh did his last work in as good

cal ones evolved the fact that Jason was after the gold bugs' hide, or at least the capital part of it. Mr. Brown was reticent in discussing important questions. He knew nothing about the platform, but he supposed one was being written. He is a follower of Senator Vectures and is for free silver. The thoughts about the golden fleece had hardly ended, when John E. Lamb and Cyrus F. McNutt, of Terre Haute, entered: The ink was hardly dry on their signatures until James E. Murshape as at any time since he was sent to the post, and Doggett will surely ride him to the hest advantage. Hornpipe will have to show some improvement on his last race to be placed. Sir Walter, winner of the on their signatures until James E. Mur-Brooklyn, is not much thought of, as his twelve pounds penalty for winning that event has brought him on level terms with Martinsville, ex-State that man, and Hugh Doherty, of Bluffton. They all turned around and faced "ph Marsh and Charles G. Offutt, of Greenfield. Others who came were Morgan Chandler, of Greenfield; A. W. Clark, of Greensburg; C. W. Welman, of Sullivan, and John Overmyer, of North Vernon, who claimed himself the only original natentee and sole grounders of the Clifford. The Commoner is given as a doubtful starter, but Mr. Wallace says he will surely start.

The odds as quoted on the Suburban to-night are as follows: Henry of Navarre, 2 to 1; Clifford, 7 to 5; Sir Walter, Belmar, Nanki Pooh, 10 to 1 each; Hornpipe, 15 1; The Commoner, doubtful starter.

WILLING TO TAKE CHANCES.

Hold-Over Senator Sweeney Ambitious to Be Lieutenant Governor. Michael F. Sweeney, of Jasper, Dubois county, who is a hold-over Democratic Senator, created some consternation yesterday by branching out as a candidate for Lieutenant Governor. Mr. Sweeney was the leader of the Democratic minority in the last Senate and was a hero of the "elevator fight." He began his candidacy in a very aggressive manner and brought to his supplaced in charge of Dr. E. C. Johnson, of this city. An examination showed that his left arm and collar bone were broken and his skull fractured, which injuries Dr. Johnson pronounced fatal. He was taken to the Baptist Hospital at Chicago, where he died late this evening. Hothersall was eighteen years old and was commonly known as the "midget" jockey, his riding weight being fifty-eight pounds. He was a general favorite at the Lake county tracks and was considered one of the best jockeys port a host of friends. The other candidates for this nomination felt that Sweeney ought to lay low and watch his seat in the Senate. They presented the argument to him that his vote might save the Democrats a United States Senator in the next Legislature. Mr. Sweeney thought, though, that he was the man of the hour to preside over the joint sessions should there be a close division in the Legislature on party lines. Some of his friends asserted that he would make the memorable methods of Green Smith look sick if such a condition Coulter to ride during the season and was in general demand by other owners when not having a mount for his own stable. Little Jimmy was shot. The winners of to-day's races were: Big Strive, 7 to 10; Golden Tide, 15 to 1; Springtime, 4½ to 1; Rubberneck, even; Ragner, 3 to 5; Merry Monarch, 4½ to 1. uld develop as the result of the co In the evening Col. Several delegates who had been busy harvesting and had no time to read the papers came in prepared to sacrifice their agricultural interests and make the race for State Geologist. Before they got very far they found out that, although this office was mentioned in Chairman Holt's call for the convention, that no nomination would be made, as the present incumbert was elected for four years and had two yet to serve. They were told to call at the next convention.

TRYING TO SAVE CRUMBS. Gold Contingent Working for Fan-

ning, Chandler and Griffiths. The gold contingent is by no means hopeless of getting something out of the turmoil. They feel sure that they will be able to nominate Fanning for Auditor and have strong hopes of pulling Chandler in for Treasurer and Marion Griffith for Attorney-general. After the meeting of the Marion County Sound-money League at the Grand last night a little conference was held by a number of the leaders of the sound-money wing from over the State and they determined to concentrate their efforts retary of State and the Governor, as "They may we have the brains and you mark my prediction that we shall succeed in splitting the ticket with them. If Myers had been inal patentee and sole proprietor of the free-silver question.

After dinner the corridors of the Grand were filled with silver and its friends. The "gold bugs" were out in force, but their force was insignificant as compared with that of the silverites. The out-of-town saloon attendance was augmented by "Jedge" Buskirk, Charles W. Bridges, who distributed his cards announcing his candidacy for State Treasurer at "16 to 1." Romus F. Stuart, Charles Kirland. Smith H. Myers, Charles M. Cooper and other well-known business and laboring men of this city. "Jedge" Buskirk was voluble but not violent, and he was even seen going down willing to run and had not been so out-spoken we could put him on also and carry through the old ticket straight."

It is on the strength of the old ticket cry that the gold people hope to pull their men through. They argue that these men accepted nominations, paid their assess-ments and stood the burden of the campaign two years ago when there was absolutely no hope of success and that they are now entitled to their reward for this sacrifice by having what they may ask of the convention given to them.

It looks very much as if S. M. Ralston, of Lebanon, would be the nominee for Seretary of State. Each of the other cand dates realizes the fact that Ralston is th man he has to beat in order to win out He is one of the original silver "pushes" and has what the Democrats always ap preciate in a campaign, a little harrel of hi

time, dined and left to attend the platform conference at the Governor's office. Up to midnight he had not returned. Mr. Shively had no use for the head-quarters which he has opened in Room 39. Many delegates went to the room and found It is not at an improbable that the convention will set aside the existing State Many delegates went to the room and found only heavy carved furniture, a burnished brass bedstead and some allegerical pictures representing Atalanta in her mythological springtime race, stopping to pick up the golden apples as they were dropped by her male antagonist. In the picture, however, the angtagonist did not have a 16 to 1 button on his brief raiment. It was stated last night that a delegation of 150 South Benders would reach the city this committee and put the management of the campaign into the hands of a campaign committee of its own creation. This suggestion was first made by Charles L Jewett, of New Albany, ex-chairman of the State committee, who is a sound-money man, but advocates this step, because he man, but advocates this step, because he does not want a sound-money committee to be held responsible for what is likely to prove a disastrous campaign. The free-silver people have fallen in with the suggestion with considerable enthusiasm, for an entirely different reason, namely, because they have no use for Holt and do not want to see him run the campaign. They declare that this method would avoid the necessity of deposing Holt; he and his committee would simply be placed in the background during this campaign and after it is over they could step in again and pick up the pieces. South Benders would reach the city this morning and would be greeted at the station by a brass band. After some maneuvering it was decided to send a band composed exclusively of silver instruments. As there is no silver bass drum in the city it is probable this interesting instrumer will be dispensed with. And what is the man in debt to do when he has to pay up and hasn't any eash or silver to turn into this new kind of money?"

The committee sat down emphatically upon the plan to have a two days' convention on the ground that it would be unfair to keep the people here two days for the benefit of the Indianapolis hotels. "Bill" Flynn on Deck.

"Bill" Flynn was a feature in the crowd The chief reason, however, lay in the fact that since the delegates began to gather the sound-money cause has gained some converts, and the free-silver committee fears that if things are not carried through with a whoop and in a hurry they may lose so much ground as to make it danin the hotel lobby last night. Those who formed the opinion that Elynn was a big brawny, ignorant Irishman, were badly fooled. While Flynn's accent and language are peculiar, he displayed a remarkable versatility and accuracy of knowledge that knocked out these who bandied words The rest of the time was occupied in finding out who is likely to serve upon the resolutions committee from the various diswith him. Flynn has an uncouth but direct way of expressing himself and many of his sentences contained such pointed irony and wit that he soon had things to himself. One by one the leading gold-bugs were introduced to him. Flynn paid his compliments with good nature, but severity, to "Tammany," as he calls Tom Taggart, sterling R. Holt, John W. Kern, Michael O'Connor, John W. Holtzman, John P. Frenzel and others. Flynn had an enjoyable evening and there were none of the "gold bugs" that escaped his ready wit. There were plenty of old-time green-backers among the delegates, a good show-ing of Populists and several free-silver Prohibitionists among the "push." Many of the delegates who have always worn beards and who are now yawping for free silver, have shaved. This is explained by their fear that they would be called

The candidates had little use for their headquarters yesterday and last night. The delegates wanted to be closer to the room under the office, where their thirst could be quickly quenched.

bring her back to health and strength. Most women do not understand their own bodies, or the things that make them well or sick. The most frequent cause of sick-ness in women is the cause last looked for. A women will go to a doctor when she has a severe cold, or some acute digestive dis-turbance, but she besitates and procrustinates when the trouble is with the distinctly feminine organism. And yet the latter is infinitely more serious. It is the most serious sickness that any woman can have. It is the most dreadful—the most dangerons. Its consequences are always serious, and serious right at the beginning because it is debilitating. It saps the life and strength and works on the nerves to such an extent that the whole body is disturbed. Appetite leaves, the color goes from the face and hollows sink into the cheeks. Irritability succeeds good temper and fretfulness takes hollows sink into the cheeks. Irritability succeeds good temper and fretfulness takes the place of contentment. Little by little life becomes more and more miserable. The woman is killing herself with neglect just as surely as if she were taking deadly poison. Perhaps her husband cannot persuade her to go to her doctor, because she naturally dreads the inevitable examinations and "local treatments." He can persuade her if the needs persuasion to take tions and "local treatments." He can persuade her, if she needs persuasion, to take Dr. Pierce's Favorite Prescription. This truly wonderful medicine has cured hundreds of women after the best physicians have failed. It has been in constant use and tested every day for 30 years. It isn't an experiment, there are no cliquees about it. It is a certain and infallible cure for all derangements peculiar to women. Those who care to know all about it, and to receive the best medical work ever prepared for the general public are invited to send 21 one-cent stamps to cover cost of mailing only and receive a copy of Dr. Pierce's thousand page book, "Common Sense Medical Adviser." Ministers Should Use

Dr. Miles' Heart Cure.

HERE IS NO PROFESSION, who labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by overwork, frequently brings on attacks of heart trouble, and nervous prostration. Rev. J. P. Kester, M. D., Pastor U. B. church, London Mills, Ills., himself a physician, writes Feb. 26, 1335: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work
